EDUCATION

Bangladesh University of Engineering & Technology <i>Bachelor of Science in Computer Science and Engineering (CGPA: 3.54)</i>	Dhaka, Bangladesh 2020 – 2024 (Current)
Notre Dame College <i>Science (GPA: 5.00/5.00)</i>	Dhaka, Bangladesh 2017 – 2019
Monipur High School <i>Science (GPA: 5.00/5.00)</i>	Dhaka, Bangladesh 2007 – 2017

ACHIEVEMENTS

2nd Runners Up <i>Developed a project "PetPalok" which is a Pet Community Web-App</i>	Therap Javafest 2024 Therap(BD)
---	------------------------------------

PROJECTS

PetPalok | *Java Spring Boot, React, MongoDB, Python* | [Code](#) | [Visit PetPalok](#)

- **Pet Profiles and Services:** Manage pet profiles, gallery, medical history, and schedule vet appointments (online via PetPalok).
- **Marketplace:** Platform for sellers and users to trade pet goods, with price prediction using TensorFlow GRU.
- **Community and Chat:** Facebook-like groups for updates, user-to-user chat (Socket Programming), and AI chatbot via Groq API
- **Appointment Organizer:** Centralized scheduling, document storage, and prescription management.

MediaSynergy | *React, Node, MongoDB* | [Front-End Code](#) | [Back-End Code](#)

- **Content Management:** Create, edit, save, and schedule posts for multiple platforms via Ayrshare API
- **Analytics Dashboard:** Track post performance (comments, reach, reactions) using Facebook Graph API
- **Business Community:** Dedicated space for startups and organizations to network and communicate

Energy Usage Prediction for Smart Grid Optimization | *Machine Learning, Python* | [Code](#)

- **Energy Usage Prediction:** Predict short-term and long-term energy usage from time series data
- **Testing:** GRU, N-BEATS, ARIMA models were used for testing
- **Architecture:** LSTM model with NNPSO (Neural Network based Particle Swarm Optimization) for better performance

Freeway Rush | *Unity Game Engine, C#, Blender, Photoshop* | [Code](#) | [Demo Video](#)

- Navigate bustling roads, avoid obstacles, and test your reflexes in this dynamic and engaging running game

Foodies | *PHP, MySQL, HTML, CSS* | [Code](#)

- **Online Food Ordering and Delivery Platform:** Seamlessly connects users, restaurants, and riders for a complete food experience—users place orders, restaurants craft meals, and riders ensure swift delivery

Football Database Management System | *Java, Javafx, CSS* | [Code](#) | [Demo Video](#)

- A simple football players and clubs management system made with Java and Javafx
- Maintains player and club information, allows clubs to sell and buy players, search and other features
- OOP, Threading & Networking concepts were used

Snakes and Ladders | *C, Igraphics, Photoshop* | [Code](#) | [Demo Video](#)

- Simple snakes and ladders game made using igraphics library of C

TECHNICAL SKILLS

Languages: C/C++, Java, C#, MATLAB, Python, JavaScript, HTML, PHP

Frameworks and Database: React, Spring Boot, SQL

Developer & Documentation Tools: Git & Github, VS Code, Postman, L^AT_EX, Google Colab, Kaggle

Others: Unity Game Engine, Blender, Photoshop
